TO: DCI

FROM:

SUBJECT: Andrew Sides

REMARKS:

As per attached, received a phone call today from Andrew Sides re his letter of 31 May 1977 inviting you to address the Forging Industry Association meeting 13 November 1978 in Palm Springs, California, or 29 April 1978 in Phoenix, Arizona. You have already accepted the Navy League address in New York on 13 November 1978. According to his 31 May 77 letter, the session is from 12-16 Nov. You could conceivably offer to address the group later in the session.

Recommend responding to Mr. Sides--I normally try to group together several engagements for a trip of that distance...no other offerings for that part of the country and that time period. I would like to regret the November 1978 offer and ~~keep in mind~~ April 1979 (perhaps we can plan West Coast trip around it--but timing doesn't look good for seeing the grandchildren around Christmas or Association in August).

I'm afraid I forgot completely about this one when the Navy League invitation came in.

FROM:

SUBJECT: DCI Address to Forging Industry
Association

REMARKS:

Per your request, attached is a copy of correspondence between DCI and Andrew Sides regarding the latter's request that DCI address the Association in November 1978 or April 1979. You might also ask for a copy of a recent letter DCI wrote to Mr. Sides; I don't know if it refers to the speech or not.

Mr. Sides called me this morning, as he is anxious to firm up the DCI's address. Mr. Sides would much prefer that DCI attend the November session. As stated in his 31 May letter, Mr. Sides hopes DCI and Mrs. Turner would arrive in Palm Springs on Saturday, 11 November, for participation in Association meetings on Saturday and Sunday, and DCI would be the kick-off speaker on Monday, 13 November, at breakfast. Mr. Sides said today that he particularly hopes DCI can do this in November, "as the nearest meeting would be taken care of." He said he has been "talking indirectly with Jimmy Carter" for the April 1979 date, but Mr. Sides acknowledged that it might be impossible to get the President there.

I told Mr. Sides that I do not handle the Director's speaking engagements but that I would pass this on to you. I am sure he is anxious for an early response.

ADMIRAL STANSFIELD TURNER

12 April 1978

Dear Andy and Anna,

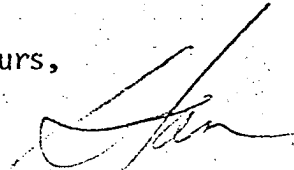

How disappointed we were to receive a message while in [redacted] that you were thinking of stopping by en route from Florida to Rhode Island and that it just wouldn't quite mesh with our schedule. As my office told you, we arrived home late that evening after a 19 and one-half hour flight and wouldn't have been very scintillating company. Still, we are sorry to have missed you. Hope you will keep us in mind the next time.

We are both going to make a very hasty visit to Newport on the 22nd of June where I will talk at the Change of Command ceremony for the Commander of the Center--Captain Howard Kay, an old friend out of '48. I'll ask him to invite you to the ceremony but don't really think it will be worth your while. We'll try to give you a call if time permits--we fly in in the morning and out right after the ceremony.

We really had a marvelous trip to the Middle East. We will have to sit down with photographs in hand of our trip to the Middle East and your far more extensive one and really compare notes before long.

All the best.

Yours,

STANSFIELD TURNER

Mr. and Mrs. Andrew B. Sides, Jr.

5 JUL 1977

Dear Andy,

Pat and I are still thinking back on and enjoying the pleasure of seeing you and Anna on our trip to Rhode Island. You were so nice to us and we so enjoyed that leisurely and delicious lobster lunch and opportunity to visit.

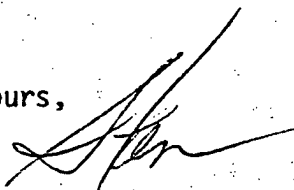

We just, incidentally, had an evening and a day with Red and Nick. Nick was given a special award by Martin-Marietta and came here to Washington to receive it. You may know they have moved from Denver to Lompoc, California, where he is busy installing the ground equipment for the space shuttle system.

I'm making a tickler for November 1978 and April 1979 for the Forging Industry Association meetings. If I'm not fired by then, I'll be happy to come to either one you prefer. We do hope it will work out one time or another.

In the meantime, have a wonderful summer on the water and trip across Russia.

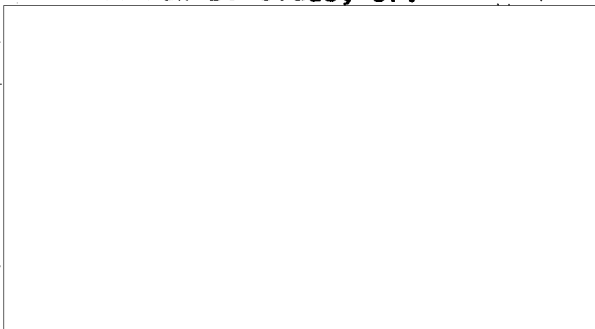

All the best from both of us.

Yours,

STANSFIELD TURNER

Mr. Andrew B. Sides, Jr.

May 31, 1977

Dear Stan,

What a treat it was for Anna and me to spend some time with Pat and you last weekend. You both look wonderful; how you keep up the pace I'll never know; but you certainly seem to thrive on it. We also feel it is exciting to talk to someone who is really in a position to mold the future of our great country.

I mentioned that I would write and tell you about the two Forging Industry Association meetings that occur during my term as President. The dates and locations are as follows below:

Sunday, November 12, 1978 through
Thursday, November 16, 1978 --
-- Canyon Hotel; Palm Springs,
California.

Sunday, April 29, 1979 through
Thursday, May 3, 1979 -- Arizona
Biltmore; Phoenix, Arizona.

It might be fun for you and Pat to come in on Saturday and be our guests at the Officers and Directors get-together on Saturday night; and then join us for dinner. On Sunday you two could have a free day to enjoy the many sports and activities available at either one of these areas. On Sunday night, we hope you could attend the convention opening event get-together and then be our kick-off speaker on Monday morning. This is the spot that Senator Lugar filled, also Dr. Wernher Von Braun, and a number of other distinguished visitors in the past.

May 31, 1977

Page 2.

I did mention that you would be on your own on Sunday because I will have to spend most of the day in board meetings.

The Forging Industry Association is headquartered in Cleveland, Ohio, and is comprised of more than 200 forge plants throughout this country and Canada. The dollar sales are approximately \$1.7 billion produced by 45,000 workers. It is pretty much a small business industry, the average being 225 employees with sales of \$8 million.

I also told you we have been working very closely with OSHA in studying the causes and effects of noise because forging is one of the noisiest industries. I also mentioned that I hope to get President Carter to be our kick-off speaker at one of these meetings and will follow up on your suggestion to work through Vern Weaver of the SBA.

As the time approaches, I'll send you considerably more information and hopefully we will have a chance to discuss it in person between now and then.

We will both be watching the developments in the Intelligence Community's alignment during the next few months with great interest.

Very best regards.

Sincerely yours,

P.S. Thanks for the Moscow Street Guide. Knowing where it came from, it's undoubtedly the best around.

Admiral Stansfield Turner, USN
Director of Central Intelligence
Washington, D.C. 20505
